

TRIPOLI INDIANA LAUNCH REPORT December 13, 2009

Mother Nature decided to be a bit unkind to us this time around. The day started out with a club meeting on the field in Doug's Trailer. Since the weather was rather nasty a minimal setup was done.

The skys opened up enough to get some rockets in the air and we even had some spectators stop by to watch.

While it wasn't the best day to be on the launch field, we still managed to get a couple dozen flights in the air.
