

# TRIPOLI INDIANA LAUNCH REPORT May 2, 2010

May 2nd was Tripoli Indiana's second research launch. The fields were a little soft due to the overnight rain, but by 1PM we even saw some sun and quite a few rockets taking to the sky.

With light winds most of the day, we have some fantastic flights including two Level 1 certification flights by Richard Cash and Ray Hansen!

#### Motors Burned:

Impulse Class	Number Flown
MicroMax	0
A	0
B	0
C	2
D	1
E	1
F	1
G	1
H	5
I	4

<b>TOTAL</b>	<b>34</b>

Thomas Feldman's Wildman called Rattler flying on a research I350

Larry Terneus' Extreme Wildman flying on a K815 Skidmark

Roger Jeezler's scratch built Mad Max on a L1500 Wayside White.

Ken Herrick's 1/2 scale PML Patriot flying on an M3000 Tigertail.

Gus Piepenburg helping Dennis Watkins from Huntington, Indiana, get his LOC Big Nuke ready to fly on a K740 for a beautiful flight to 4000'.

Paul Wolak's Brutus flying on a Aerotech I284.

Doug Jackson's Scratch Built Purdue rocket on 2 J570's.

Randy Milliken's LOC Legacy flying on one of the new Aerotech G75 motors.

Ray Hansen's Wildman Junior Flying on a H73 for a successful Level 1 certification flight.

Doug Jackson helping Paul Wolak get his LOC magnum On the rail.

Paul's Magnum flying on a K550.

Brian Perry's 4" Thor on a Aerotech Mojave Green J500.

Walking back to the flight line after a successful flight.

Although it looked like rain more than once during the day, it held off long enough for us to get packed up and on our way.

This will be the last launch at the Ash Grove site until after the harvest in the fall and we would like to express thanks to all that attended our research launches and look for more in the fall.

Next launch June 13th at Purdy Sod Farm.
